

Safety at electrical work:

EN 50 110 Operation of electrical installations / The Danish L-AUS

This certificate certifies that the student has achieved satisfactory results in the course.

The course includes:

- ✓ EN 50 110 Operation of electrical installations and the Danish Heavy Current Act and general regulations for safe working
- ✓ The danger of electricity – Low and High voltage
- ✓ Basic Principles including Safe Operation / Risk assessment and general electrical safety aspects
- ✓ Standard operational procedures including Function Checks – Low Voltage
- ✓ Working Procedures – Low Voltage
 - Dead working
 - Live working
 - Working in the vicinity of live parts
- ✓ First aid for electrical accidents

Receiving this certificate means that the student has had at least 80% correct answers in the final examination.

CERTIFICATE

Dominik Chmielewski

Has successfully completed the
course

Electrical Safety EN 50 110/L-AUS

Course date:

2017-11-03

Safety at electrical work, EN 50 110 Operation of electrical installations / L-AUS
Dette bevis certificerer, at kursisten har opnået tilfredsstillende resultat på det omhandlede kursus. Kurset instruktion i EN 50 110 Operation of electrical installations og Stærkstrømsbekendtgørelsens L-AUS bestemmelser, herunder:

- Dansk og Europæisk lovgivning og afgrænsning
 - Strømmens farlighed Lavspænding og Højspænding
 - Risikovurdering og generelle L-AUS aspekter
 - Funktionskontrol - Lavspænding
 - Spændingsløst arbejde - lavspænding
 - Arbejde under spænding - lavspænding
 - Arbejde i nærheden af spændingsførende installationer – lavspænding (Inkl. Højspændingsadvarsel)
 - Førstehjælp ved el-ulykker
 - DS/EN 50 110 hvor denne afviger fra L-AUS
- Modtagelse af dette certifikat indebærer, at kursisten har haft minimum 80 % korrekte svar ved den afsluttende eksamination.
